30	3000 pts	Mark each attempt (1 mark for a flash):		50	5000 pts	Mark each attempt (1 mark for a flash):		

Comp Info/ Rules: Points are earned by completing a problem from start to finish (must control final hold). Record each attempt made (every time your feet leave the ground). One attempt is a flash and must be noted as such. All natural features are "off" unless marked otherwise. If a hold spins or breaks step off immediately or the attempt will count (then please contact a routesetter). If you use a hold or feature that is "off route" no points can be earned and the attempt will count. Two witnesses or a judge must sign your scorecard in order to receive credit. Your final score is the sum of your 5 highest point problems, and ties will be broken by number of attempts. If you have further questions, please see the host gym manager/organizer and/or consult the USA Climbing Rulebook. YOUTH AGE CATEGORIES (19 and under): try any problems you want in any category. Since you are ranked only against those folks in the same age category, you want to complete the 5 highest point-valued problems that you can. All attempts MUST be judged. Any attempts or completions not judged, will not be counted towards your final score. All competitors must have a USA Climbing membership prior to the start of the competition in order to receive credit for the event and scores entered into the scoring module.
