Comp Info/ Rules: Points are earned by completing a problem from start to finish (must control final hold). Record each attempt made (every time your feet leave the ground). One attempt is a flash and must be noted as such. All natural features are "off" unless marked otherwise. If a hold spins or breaks step off immediately or the attempt will count (then please contact a routesetter). If you use a hold or feature that is "off route" no point can be earned and the attempt will count. Two witnesses or a judge must sign your scorecard in order to receive credit. Your final score for each discipline, respectively, is the sum of the 5 highest point boulders you completed and/or the 3 highest point routes completed. Ties will be broken by number of attempts. If you have further questions, please see the host gym manager/organizer and/or consult the USA Climbing Rulebook. All attempts MUST be judged. Any attempts or completions not judged, will not be counted towards your final score.
